Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, Claim 1 contains alternative language in two different locations with the claim (lines 17 and 21). While the applicant would normally be given some latitude regarding such language in this instance applicant is creating so much ambiguity regarding the claim limitations it is impossible to clearly determine the scope of the claim.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
